OBJECTIVE

B.Tech Computer Science & Engineering student specializing in Artificial Intelligence and Machine Learning with a **9.30/10 CGPA**, seeking Software Engineering, AI/ML, or SDE opportunities. Strong foundation in **Java, Python, Data Structures & Algorithms, Machine Learning, and Full Stack Development**, with hands-on experience through two industry internships and real-world AI/ML projects. Quick learner and problem solver with active competitive programming experience.

EDUCATION

B.Tech – Computer Science & Engineering (AI & ML) | Uttaranchal University **2024-present**

Focused on AI/ML, Data Structures & Algorithms, and Software Development with hands-on project experience.

Intermediate (MPC) | Government Junior College **2022-2024**

Focused on Mathematics, Physics, and Chemistry, developing strong analytical and problem-solving skills.

EXPERIENCE

Machine Learning Intern | CodeAlpha — Remote **July 2026-august 2026**

Developed three machine learning projects: **Disease Prediction, Credit Scoring Model, and Handwritten Character Recognition**. Applied data preprocessing, feature engineering, model training, evaluation, and predictive analytics using **Python, Scikit-learn, Pandas, NumPy, and OpenCV**.

Artificial Intelligence Intern | EduExpose — Remote **June 2025-july 2025**

Developed a **Real-Time Object Detection System** using Python and OpenCV. Applied Artificial Intelligence, Computer Vision, and image-processing techniques to perform live object detection and real-time recognition.

PROJECTS

CardioVision AI | Machine Learning

Developed a heart disease prediction application using **Python, Scikit-learn, Streamlit, Pandas, and NumPy**, featuring an interactive dashboard, data visualization, predictive analytics, and deployed ML inference.

Raktha-Sethu | Full Stack / AI

Developed an AI-powered smart blood donation platform using **Python, Flask, MySQL, HTML, CSS, and JavaScript**, featuring donor matching, blood compatibility, emergency requests, blood bank management, analytics, and offline support.

Handwritten Character Recognition | Machine Learning

Built a handwritten character recognition system using **Python, TensorFlow, and OpenCV**, including image preprocessing, model training, evaluation, and character prediction.

SKILLS

Programming: Java, Python, SQL, JavaScript
AI/ML: Machine Learning, Artificial Intelligence, Scikit-learn, TensorFlow, OpenCV
Web: HTML, CSS, JavaScript, Flask
Database: MySQL
Tools: Git, GitHub, VS Code
Core CS: DSA, DBMS, OOP, Operating Systems, Computer Networks

ACTIVITIES AND ACHIEVEMENTS

- Solved 600**+ Data Structures & Algorithms problems** on competitive programming platforms.
- Completed **2 industry internships** in Machine Learning and Artificial Intelligence.
- Built multiple real-world **AI, Machine Learning, Computer Vision, and Full Stack projects**.
- Maintained a strong academic record with **9.30/10 CGPA**.
- Active competitive programmer on **LeetCode and HackerRank**.
- Earned **HackerRank Software Engineer Intern** and **Problem Solving (Intermediate)** certifications.
